Date: Tuesday, December 03, 2013 3:47:59 PM

Jayne,

I think our best option is 12/9 at 9:30. I have (b) (6)

(b) (6)

We would also like to include Benjamin Benninghof and Doug Drake since they worked on this document. Hopefully at least one of them will be available.

Greg

Hello Jayne, per my notes next to the proposed dates below, I could make the 9th and 16th and could probably make the 19th work if that is the day that works best for others. Thanks, Patty

Subject: NOAA/EPA Proposed Decision Pertaining to New Development Management Measure & Availability to Set Up Call During December

Hi Greg (Gene and Patty),

In our action later this month, we propose to public notice our intent to find that Oregon *has not fully satisfied* remaining conditions related to the New Development Management Measure. We would be happy to discuss this further. When are you (Greg, Patty, Gene) NOT available?

- Dec 9 at 9:30 AM – OK
- Dec 11 at 9 AM - NA
- Dec 12 at 1 PM - OK
- Dec 16 at 11 AM - NA
- Dec 19 at 1 PM – NA (Although I could probably change my 1pm mtg if I had to)

Regards,

Jayne Carlin, Watersheds Unit

Subject: RE: Comments on New Development Guidance Document

Jayne – thanks for this update. I realize that 12/20 is the new date for the FRN on Oregon's CZARA. Given this new information, are you able to tell us what the "proposed" recommendation will be? We have info on the other outstanding measures from our meeting on 10/29, but don't for this one. I remember at our 10/29 meeting talking about the dilemma over the need for some type of "backstop" rule. EPA and NOAA expressed concern about Oregon relying on the yet to be issued national stormwater rule, but you all understood that it doesn't make sense for Oregon to develop a similar rule this time. Christine and Dennis indicated that you'd work with us on this "dilemma" and we'd like to know your current thinking.

Thanks.

Greg

Subject: Comments on New Development Guidance Document

Hi Gene,

We anticipate providing comments on the September draft version of the guidance document designed to address the new development management measure (Draft Guidance for TMDL Implementation Plan Development for Urban/Rural Residential Land Uses within the Coastal Nonpoint Management Area) by December 20.

Regards,

Jayne Carlin, Watersheds Unit
